That our children of many nationalities and races, born far from the centers of art, may receive an intimation of their own cultural legacy and wake to the ideals embodied in the arts of their neighbors....that Hawaiians, Americans, Chinese, Japanese, Koreans, Filipinos, Northern Europeans and all other people living here, contacting through the channel of art those deep intuitions common to all, may perceive a foundation on which a new culture, enriched by the old strains may be built in the islands.
