

## **Supply list for First Class @ Western Floral Design – Foundation class**

5 week session

The students will be responsible for bringing in their own flowers/greens and other supplies for these classes. I will hand out a 5 week supply list and go over it during the first class so you will know what and where to purchase these items.

Student needs to **bring these tools to the first class:**

Floral knife or clippers

Butter knife for cutting foam

Scissors

Tall bucket to hold water and flowers (tall rubbish can will work)

Wire cutter if you don't want to ruin your clippers or scissors

Newspaper to cover table

Box to carry home arrangements

**Please bring these flowers for the first class:**

Small roses (spray roses) 2 stems – any color

1 stem of dendrobium orchid – any color
